

The spirit of God was successful

In 593 before Christ the mighty hand of JHWH came upon Hesiakel during his time in prison.

He saw heaven open before eyes and things happen, that are talked about in revelation again and will come to pass in the near future.

One year later JHWH showed Hesiakel the bad things that happened in the house of God and he heard the old people amongst them say: God does not see us, He has left our country. Because of all these cruel attitudes and deeds God's glory was taken away from the temple of God and judgement follows. Only 21 years later, 571 B.C. anew God reveals himself to Hesiakel.

Other men before had made experiences like this, too.

When Saul was anointed to be King, he was promised: "The spirit of God will seize you and you will talk prophetically and you will be transformed into another person. 1. Sam. 10,6. And this happened that way: When they came to the hill, there were many prophets and the spirit of God came to Saul (took possession of Saul) and he prophesized.

The original text of the A old testament says(Codex Sinaiticus): "The spirit of God was successful with Saul. When could the spirit of God reach you and work in your life successfully during the last time ??,

Or, with regard to David in 1. Sam. 16,13: "Samuel took the oil and anointed him in midst of all his brethren and spirit of God seized David from this day on and longer. (was successful with David) As a result JHWH says: I found David, a man who is near to my heart (comes up to what I, God, expect fervently when I look for relationship with man) He, David, will do all of my will. Apg. 13,22. Again, the original text of the o. t. says: (Codex Sinaiticus)

The spirit of God was successful with David.

The holy spirit, this anointing of God is of utmost importance for our spiritual life. Without this anointing we are like dead bones, and sometimes we may ask: Will it be possible, that these bones come to life!?

Saul was another person by this anointing. David, a man that came up to God's expectations. Hesiakel a prophet, he spoke out, what God spoke to him first. "Speak to these bones, they come to life". Three times he had to speak out these words and then the impossible happened: first of all: flesh, skin and bones, then the power of God brought life to these bones.

What do we talk about? Is our tongue ready to speak out the word of God that brings life? Or is our tongue a product of deadly poison coming directly from hell?,

Jak. 3,8. 15 our tongue cleansed, as it was with Jesaja by glueing coal from the altar by the fire of the holy spirit and the blood of Jesu?

If this happened in Your life, there is only one answer when God asks: "whom shall I send" - It is: "God, send me".

There is no reason to look at all those dead bones around us and be sad. Do you believe, that those bones can come to life? If we desire to see this happen, the spirit of God can be successful on /in us- through us - and when we say: Come to life, bones, it will come to pass.

This was, what Hesekeiel experienced. He spoke the w o r d of G o d and the driest bones came to life. Speak out the word of God in your situation, let H I S word fill your mouth. The holy spirit is the same as we was in ancient times and our attitude towards Him enables him to make use of us prophetically. He may be successful then - aswith Saul and David.

Does this happen in our life ? Did we make the experience "You will be another human being -. a person that likes community, relationsship, a person that is of great help due to the prophetic gifts, given by God.

"The spirit of God prophesy is the witness of Jesus. Or, the other way round: The witness of Jesus is the spirit of prophesy.

Is the spirit of God successful in your life ?

Then, He will bring to life all, that is dead around
